## Investor demand by geographic region

## Issuer highlights

- This is Ontario's second EUR benchmark transaction of the 2014-15 fiscal year.
- Nearly 50 investors participated in the trade, including a significant number of bank treasuries and asset managers. The final book had orders in excess of €1.3 billion, allowing Ontario to price a €1.25 billion transaction.
- The deal experienced strong momentum and is a testament to the Province's strong following in the Euro market since its return last year
- With this issue, Ontario has completed \$31.3 billion of its \$35.0 billion long-term borrowing forecast for 2014-15
